

The only thing we have in common with others? Drawing boards.

This is our new studio. Down to earth, focused and friendly. A unique, one-stop design and build workshop, it reflects who we are and what sets us apart. We manage your project from concept to completion with simplicity, flexibility and style. Separately, you can hire a designer, a builder and trades people. Or you can come to us for a superb, singular experience. The choice is obvious.

We stand out from the crowd. You will, too, with our innovative, original designs. Come in and meet our talented team. We look forward to listening to your ideas!

Now conveniently located at 221 Hannon Road Cambridge.
